EMPLOYMENT

Senior Software Engineer **Woven by Toyota** **March 2022 - Present**

Supporting Toyota's autonomous driving initiative

- Building storage & orchestration layer to process continental-scale maps
- Building cloud service to deliver maps over-the-air to next-gen Toyota fleet
- Organized 300 TB of orthoimage data and made it accessible to internal engineering teams

Software Engineer **Amazon Japan** **May 2019 - March 2022**

- Built an ETL pipeline that publishes search terms of 2B+ products a day worldwide
- Enabled blocklisting support that blocklists 2B+ search terms a day in Amazon Search

Software Engineer **Amazon.com** **June 2016 - May 2019**

- Enabled multi-language support in Customer Q&A for 12MM+ customers in four marketplaces
- Launched "Have a question?" widget on the detail page, to 500MM+ widget loads a day
- Built data collection stack that logs 4MM+ search requests daily to a data warehouse

Research Assistant **University of Wisconsin-Madison** **Summer 2015**

- Conducted research in unmanned aerial vehicles

Teaching Assistant **University of Wisconsin-Madison** **Fall 2014 - Spring 2016**

- CS570 Introduction to Human-Computer Interaction (Spring 2016)
- CS534 Computational Photography (Fall 2015)
- CS367 Introduction to Data Structures (Fall 2014, Spring 2015)

Research Engineer **Defense Science Organization, Singapore** **Aug 2011 - Aug 2014**

Autonomous capabilities of autonomous underwater vehicle

- Developed obstacle detection and classification algorithms. Python, C++
- Developed vehicle speed optimization algorithm to determine optimal speed in-mission. MATLAB

EDUCATION

Madison, WI **University of Wisconsin-Madison** **Fall 2014 - Spring 2016**

- MS in Computer Science, GPA: 3.94
- UW-Madison CS Graduate Summer Research Assistantship 2015
- UW-Madison Special CS Scholarship 2014

Singapore **National University of Singapore** **Fall 2007 - Spring 2011**

- BEng in Mechanical Engineering, 1st Class Honors, Dean's List (4 semesters), CAP: 4.65/5

ADDITIONAL PROJECTS

- **The case for visual-inertial SLAM over visual SLAM** (2016). Master's project
- **M. Beyeler. *OpenCV with Python Blueprints*** (2015). Packt Publishing. Invited book reviewer.

LANGUAGES

- Java (proficient), Python (proficient), Javascript (proficient), MATLAB (proficient)
